7.1.7 - Initiatives taken by the institution to make the campus eco-friendly (at least five)

Rain Water harvesting Our institution has built a big tank on the upper most floor of the building from where water for all purposes is supplied to all the floors throughout the day. During the rainy season rain water is collected through pipes and stored in the tank at the bottom of the building. Energy Conservation We use electric energy quite economically. We are careful about the switch on and the switch off of the energy as and when required. Solar lights are installed in campus. Plastic free campus Use of Plastic is banned in college campus. We encourage students to use cloth bags. Recycling waste water plat is installed in the campus, this water is used for the plants. Underground drainage system is installed in the campus. • Cleanliness drive at college campus was launched from time to time. Clean Campus Awareness and Cleaning Activity was organized in Campus 30th Sept to 2nd October, On the occasion of Mahatma Gandhi's Jayanti, A Clean Campus Awareness Activity on Campus and community was conducted.

## 7.2 – Best Practices

7.2.1 - Describe at least two institutional best practices

Best Practices 1. Title of the practice I: Use of ICT for effective teaching learning. 2. Objectives of the Practice: 1. To promote the skill of learning and to improve the learning outcomes 2. To provide "head-heart and hand approach- 3H" to learning 3. To accelerate the teaching and learning efficiency 4. To motivate students towards innovative learning 5. To enrich the process of teaching learning 2. The context: The traditional teaching methods of chalk and talk techniques has limitations like management, neat diagrams and hand writing skills. In the modern education system curriculum is framed to develop the competencies in the teachers and students for best performance. Curricula are also emphasizing capabilities and concerns towards the application of the information. ICT are able to provide strong support for all these requirements. Information and Communication Technology - ICT has become an integral part of teaching learning process. Effective use of technology makes the class more dynamic, motivates students and renews teacher's enthusiasm as they learn new skills and technologies. Adoption and use of ICT in education have a positive impact on teaching, learning and research. The practice: In this digital era, ICT use in the classroom is important for giving students opportunities to learn and apply the required 21st century classrooms in the institute have installed projectors. The entire faculty member's take the lectures using the same. Whole campus of the institute is Wi-fi connected. Impact of the Practice: On the faculty members 1. Information Communications Technology (ICT) enabled teaching methodologies are being followed by the faculty members in class rooms as a complementary tool for conventional teaching methods. 2. Faculty members started to use ICT in the preparation of annual plan, subject time table, students practical, score keys, question bank, question papers etc. 3. The use of multimedia teaching aids like, PPTs, Videos, LCD projectors, smart classrooms and internet enabled computer systems in daily teaching learning. On the students The student teachers of M.Ed, B.Ed. and JBT. use the ICT in their internship programs and conducting practice lessons. The teachers and students use the e-library for searching the knowledge regarding the research work. Faculty students started to use well equipped Language laboratory to enhance knowledge of English communication and writing skills. Evidence of success- 1. The PPT prepared by faculties for teaching in M.Ed, B.Ed. and JBT. courses is available in our institution. 2. The student teachers PPT used in the

institution and in the schools are stored on computer. 3. The videos and the clipping of different activities are also available in the College. 2. Objectives of the Programme: • To give additional help to students who, for one reason or another, have fallen behind the rest of the class. Characteristics of programme- • Attempts are made to develop the holistic personality of the talented students. • Efforts are made to develop the learning ability of students with low learning ability • Students Efforts are made to develop communication skills in English for students in Marathi medium who have English method. • Attempts are made to find the raw links of B. Ed students and create and implement a program on it. • To understand the shortcomings of students studies. • Find out the reasons why these defects occur. • Teachers can improve their teaching to eliminate these causes. • Helps students to write accurate and precise answers. • Therapeutic programs bring benefits such as increase in student progress How are such students identified? Micro-teaching is a component of B.Ed academic curriculum. In this micro-teaching, small groups of students are formed. The schedule for micro-teaching is prepared according to the time allotted by the university so that the teachers and students are constantly in touch with each other throughout the year so that the teachers can identify the abilities of the students and identify their needs and try to meet all the valuable guidance of Dr.Jayashree Samantaray. The program is implemented. Proceedings of Remedial program: To help weak student's secure better marks and reduce dropout rate in the college, the college conducts remedial classes. The College issues a circular in this regard and the extra classes are organized for one month and the duration of each class is usually one hour. Students for remedial classes are selected on the basis of teacher's feedback and internal evaluation. Besides students who voluntarily wish to join such classes are also considered. 3. The Practice: For remedial teaching existing teachers along with guest faculty are engaged. Appropriate care is taken while planning the therapeutic program on the basis of the fact that the students are classified on the basis of their good marks and shortcomings. According to the classification of the therapeutic program before the commencement of the college, it is planned in the schedule that everyone will get one period. Also, the raw links between the students are understood from the answer sheets of the students in the session exams or tests.
